

MCCB'S Enclosures & Accessories

CRYSTAL MCCB Enclosure is a high-quality, robust solution designed to house and protect Moulded Case Circuit Breakers (MCCBs) Engineered with precision, this enclosures ideal for industrial and commercial applications where safety and durability are paramount. The Enclosures features a compact design with dimensions optimized for easy installation and maintenance, making it versatile for various setups.

Constructed from high-grade materials, it offers excellent resistance to environmental factors, ensuring long-term performance and reliability. The enclosure's design incorporates secure mounting options and ample space for wiring, contributing to efficient and organized electrical management

RANGE & FRAME SIZE

Description	FRAME
CKB-A Frame TP/FP	CMS 125
CKB-B Frame TP/FP	CMS 160
CKB-C Frame TP/FP	CMS 250
CKB-D Frame TP/FP (400A) 400 x 600	CMS 400
CKB-E Frame TP/FP (800A) 500 x 800	CMS 800

APPLICATIONS

Power Distribution
Manufacturing Process
Industrial Building
Residential Building
Commercial Building
Healthcare
Internet Data Centers
HVAC
Tele Communications

ACCESSORY

Rotary Handle (MCCB-Mounted)
(DRH)

Extended Rotary Handle (Door-Mounted)
(ERH)

Shunt Trip

Under Voltage(Release)

External Terminal(Copper)
